English and maths qualifications are vitally important for future employers and universities, so the government has made it a priority for students to improve these skills.

Entry Level / Level 1 and Level 2: We're here to help you on your journey, so if you do not achieve grade A*-C in GCSE English and/or maths, then you will study English and/or maths as part of your college course.

Students who achieve a D grade will be placed on the relevant GCSE programme, while students who achieve an E or below will be assessed to ensure they are placed on the right study programme for their ability.

Level 3 programmes: You will need to meet the course entry requirements specified on the course information above. For the majority of our Level 3 courses, students will need grade A*-C in GCSE English and/or maths. If this is not specified in the course entry requirement, then you may be able to study English and/or maths as part of your college course.

WHAT CAN I DO AFTER THIS COURSE?

On successful completion of this course you will be able to seek employment in the furniture industry as a cabinet maker, fitter or wood machinist and many other woodwork related careers. Alternatively, there will be opportunities to progress to higher education on HND and degree courses in 3D/Furniture design.
